Kathy Zandona, GLI Education

- Reviewed the ARRA funding streams that will flow from US Dept. of Education and their potential impact on Louisville; shared insights on how the State Stabilization funds will be allocated, what the priorities of JCPS will be in direct funds, and discussed the school modernization projects list.
- Requested JCPS prioritize the school modernization projects, given that the available funds are much reduced from the "wish" list. Any other "shovel-ready projects" should be submitted asap.
- While education funds will be accountable to the Governor, we agreed that educational institutions will send info to Louisville At Work when submit to state. Discussed Louisville At Work website.
- Will also share info and interest in competitive grants with the Education Work Team.
- Discussed importance of sharing across teams on ARRA benefits for clients.
- Next meeting, Friday March 20.
